### PROGRAM - Dr. Robert Lemke

#### *“Same Day Fixed Prosthetics Made Easy”*

Many dentists are reluctant to discuss or perform full arch reconstruction. Patients may have reservations as well: worries about pain or the expense are common excuses for not going ahead with this treatment. There is a simple solution. The “All on Four” technique can be utilized inexpensively and easily to provide same day reconstruction. Dr. Robert Lemke will discuss the reconstructive aspects and economics of full arch reconstruction.

Dr. Lemke is a board certified Oral & Maxillofacial Surgeon with 15 years of implant reconstruction. He has seen quite a change in full mouth reconstruction over the past ten years and is excited to explain how the newest technology can be applied to every practice.
